

Bonnie Freeman, RN, DNP, ANP, ACHPN
Supportive Care Medicine Nurse Practitioner
City of Hope

Objectives

Pain Management and End of Life Care in the Older Adult

1. Increase understanding of the specific pain management needs of the aging
2. Identify common cultural and social barriers to effective pain management in the older adult
3. Emphasize the importance of a focus on the safety when prescribing pain medication for the older adult
4. Identify most common management needs of the dying older adult
