

**June Mckoy, MD, MPH, JD, MBA**

**Objectives:**

1. To illustrate the impact of the socio-legal challenges faced by older individuals living with cancer  
Identify community resources available to assist geriatric oncology patients with legal issues they face
2. To increase knowledge among oncology nurses of existing federal and state laws that can equip them to be effective advocates for their aging patients, focus on advance directives, elder abuse and neglect, and financial concerns.
3. To provide a platform for open discussion of the challenges faced by aging patients living with cancer and to utilize case presentations to cement attendees' understanding of how to navigate the legal terrain to assist their patients
