

Matthew Loscalzo, LCSW
Executive Director and Professor – Department of Supportive Care
Professor Population Sciences
Administrative Director – Sheri & Les Biller Patient and Family Resource Center
City of Hope

Objectives

Identifying and Addressing Distress in the Older Adult

1. Participants will know how to screen for biopsychosocial problems endemic to older adults with cancer
2. Participants will understand the link between noxious physical symptoms and negative psychosocial impact
3. Participants will be aware of the barriers and opportunities related to new distress screening standards
